

MD/PhD Program Lab Joining Form

Form updated: May 2023

Student Name: _____

Student Signature: _____ Date: _____

Faculty Name: _____

Faculty Signature: _____ Date: _____

Approval MD/PhD Program Director: _____

Please provide a brief description (possible specific aims) of what you think the dissertation might look like:

Please provide a short description of a mentoring plan for this student. Include any co-mentors, frequency of regular meetings, and other activities as you deem is appropriate. Part of the mentoring plan should include helping the student complete his annual IDP.

Please write a short description of the funding plan for the student. **Note that this will include all tuition and associated fees. If a research grant does not permit payment of fees, these expenses are not to be passed on to students – the department or other sources of funding identified by the supervising faculty must pick up anything not covered.**
