The Student should always feel empowered to speak up regarding safety concerns at any point.

The clinical environment is unpredictable and there is no guarantee. When in doubt, ask for immediate clarification from supervising faculty.

**FOOTNOTES** - must adhere to CDC, TAMU, and hospital affiliate guidelines
2 - see Module 2.1 in eCampus Clinical Re-Entry Modules
3 – see Module 3.0 in eCampus Clinical Re-Entry Modules
5 – see Module 5.0 in eCampus Clinical Re-Entry Modules
6 – see Module 6.1 in eCampus Clinical Re-Entry Modules
10 - see Module 10.0 in eCampus Clinical Re-Entry Modules
A - Labor & Delivery testing guidelines may vary per clinical affiliate
B - N-95 may not be utilized until fit testing has been completed and passed
C - Participation in surgery is ok but exit during intubation or extubation
D – Participation in Labor & Delivery is governed by separate OB Algorithm
E – Participation guidance is forthcoming

**The Maroon Line for Clinical Re-Entry**

Did you complete all 12 modules for clinical re-entry?  
Did you understand the mechanisms to report any concerns to COM?  
Did you self-monitor prior to entering the healthcare environment?  
Did you understand which symptoms should prompt you to leave, self-isolate, and contact your faculty?  
Do you understand CDC and TAMU guidelines for masks, hand-washing, social distancing?  
Patient encounter supervised and approved by a Texas A&M COM faculty member?  
You must wear a cloth mask or surgical mask in all facilities at all times (café, library, elevator, lobby). Remember that you are empowered to exit any environment you deem to be unsafe.
