

Morgan McAdams

MD + MS in Medical Science

Hometown: Abilene, TX

Undergraduate Institution: Hardin-Simmons University

Undergraduate Degrees: BS in Biology

Why do you want to be a physician?

I appreciate the ability of medicine to combine being a servant to the community and contributing to the future of scientific discovery.

Why did you choose Texas A&M College of Medicine?

I was inspired by the community and opportunities offered to students. I am extremely honored to be a part of a school that maintains such high values and that cares for its students so well.

Why did you choose to pursue a graduate degree in addition to the MD?

I want to make research a complement to my career as a practicing physician, and hopefully make a positive impact on improving health of the community.

What are your career goals and how do you feel the MD Plus Program will help you?

I hope to pursue a career in orthopedic trauma surgery and the MD Plus program will allow me to explore areas of study that will relate to my career as a physician.
