What we look for:

Social Workers who are open to learning, excited to practice in an interdisciplinary clinic, engage in department-wide learning, and gain experience, skills, and supervision towards becoming a well-rounded, effective LCSW

Located In:

Bryan, TX

To Inquire/Apply:

Psychiatry@tamu.edu

As the primary provider of psychiatry and psychotherapy services in the Brazos Valley, Texas A&M Psychiatry and Behavioral Health Care offers an opportunity to learn and practice in an interdisciplinary setting with students and licensed practitioners from Medicine, Psychology, Nursing, and Social Work. Some of the opportunities for students include:

- Close interdisciplinary teamwork with Primary Care, Psychiatry, Psychology, and Nursing providers on mutual clients.
- Experience providing 800+/yr sessions of individual and group psychotherapy
- Training and experience providing both in-person and telehealth services
- Training in Evidence Based Treatments, including quarterly workshops on modalities such as PE, CPT, and CBT.
- Participation in didactic education and case presentation series with interdisciplinary learners
- Ability to direct majority of hours to populations of interest
- Opportunities to participate in additional, self-determined work with clinical and/or research faculty on current projects.
- Dedicated weekly supervision with LCSW-S
